BAB I  PENDAHULUAN
1.1. Latar Belakang ..............................................................................................................1
1.2. Identifikasi Masalah .....................................................................................................2
1.3. Perumusan Masalah ....................................................................................................3
1.4. Maksud dan Tujuan .....................................................................................................3
1.5. Metode Penelitian .......................................................................................................4
   1.5.1. Teknik Pengumpulan Data
          A. Observasi ..............................................................................................................4
          B. Wawancara ..........................................................................................................4
          C. Studi Pustaka ......................................................................................................4
   1.5.2. Metode Pengembangan Sistem
          A. Analisa Kebutuhan Sistem ...............................................................................5
          B. Desain ................................................................................................................5
          C. Code Generation ..............................................................................................5
          D. Testing .................................................................................................................5
          E. Support ...............................................................................................................6
1.6. Ruang Lingkup ............................................................................................................6

BAB II  LANDASAN TEORI
2.1. Tinjauan Pustaka .......................................................................................................7
2.2. Penelitian Terkait ......................................................................................................19

BAB III  ANALISA SISTEM BERJALAN
3.1. Tinjauan Institusi/Perusahaan
   3.1.1. Sejarah Perusahaan ...................................................................................21
   3.1.2. Struktur Organisasi dan Fungsi .................................................................21
3.2. Prosedur Sistem Bisnis Berjalan ..............................................................................23
3.3. Spesifikasi Dokumen Sistem Berjalan .......................................................... 26

BAB IV RANCANGAN SISTEM USULAN
4.1. Analisa Kebutuhan Software ................................................................. 28
4.2. Desain
   4.2.1 Database ......................................................................................... 36
   4.2.2 Software Architecture ................................................................. 44
   4.2.3 User Interface ................................................................................. 45
4.3. Code Geneation ...................................................................................... 49
4.4. Testing .................................................................................................... 70
4.5. Support
   4.5.1 Publikasi Web ................................................................................. 72
   4.5.2 Spesifikasi Hardware dan Software .............................................. 72
4.6. Spesifikasi Dokumen Sistem Usulan .................................................... 72

BAB V PENUTUP
5.1. Kesimpulan ............................................................................................ 74
5.2. Saran ...................................................................................................... 75
