## BAB I PENDAHULUAN

1.1. Latar Belakang Masalah ........................................ 1
1.2. Identifikasi Masalah ........................................... 4
1.3. Perumusan Masalah ............................................. 5
1.4. Maksud dan Tujuan ............................................. 5
1.5. Metode Penelitian ............................................... 6
  1.5.1. Teknologi Pengumpulan Data ............................... 6
    A. Observasi .............................................. 6
    B. Wawancara ........................................... 6
    C. Studi Pustaka ......................................... 6
  1.5.2. Model Pengembangan Sistem ............................... 6
    1. Concept .............................................. 7
    2. Design ............................................... 7
    3. Material Collecting ................................... 7
    4. Assembly .............................................. 7
    5. Testing ............................................... 8
    6. Distribution .......................................... 8
1.6. Ruang Lingkup ................................................. 8

## BAB II LANDASAN TEORI

2.1. Tinjauan Pustaka ............................................... 9
2.2. Penelitian Terkait ............................................ 15

## BAB III PERANCANGAN DAN PEMBAHASAN

3.1. Concept ..................................................... 18
3.2. Design ..................................................... 18
BAB IV PENUTUP

4.1. Kesimpulan ............................................................... 58
4.2. Saran-saran ............................................................... 59
