

ABSTRAK

Alwi Abdul Fatah (11161000) Rancang Bangun Sistem Informasi Akuntansi Penjualan Mesin Diesel Pada PD.Alfath Diesel Karawang

Penelitian ini bertujuan untuk merancang sistem informasi akuntansi penjualan mesin diesel belum terkomputerisasi pada PD.Alfath Diesel Karawang. Sehingga, menunjukkan bahwa perancangan Sistem Informasi Akuntansi Penjualan Mesin Diesel dapat memberikan dampak untuk menghindari terjadinya kesalahan. Yang digunakan pihak Perusahaan sebagai alat bantu perancangan dan pengelolaan dalam kegiatan penjualan mesin diesel di PD.Alfath Diesel karawang. Metode yang digunakan adalah wawancara dan observasi, penelitian ini dilakukan pada PD.Alfath Diesel Karawang yang terletak di jalan Tempuran - Karawang. Hasil penelitian dari perancangan sistem informasi akuntansi penjualan mesin diesel adalah memudahkan dalam melakukan pencatatan penjualan mesin diesel yang akurat di bandingkan dengan sistem manual yang digunakan pada PD.Alfath Diesel. Selama ini pihak perusahaan menggunakan sistem manual dalam pencatatan transaksi penjualan, padahal dengan menerapkan sistem informasi akuntansi penjualan, pihak perusahaan akan meminimaliskan resiko dalam kesalahan pencatatan dan transaksi penjualan, sehingga mendapatkan informasi yang lebih akurat dan lengkap. Hasil yang ingin dicapai adalah dapat membuat suatu sistem penjualan tunai terkomputerisasi untuk dapat membantu dalam menyelesaikan masalah-masalah yang terjadi di PD. Alfath Diesel Karawang. Kesimpulan sistem penjualan tunai terkomputerisasi dapat menyelesaikan masalah-masalah yang terjadi pada sistem pencatatan manual.

Kata Kunci : Sistem Informasi Akuntansi, Sistem Penjualan Mesin Diesel, Akuntansi Penjualan

ABSTRACT

Alwi Abdul Fatah (11161000), Design and Design of Accounting Information Systems for Diesel Engine Sales in PD.Alfath Diesel Karawang.

Right now in this era of globalization, the information technology accelerates so fast. Meanwhile with the presence of computer which is one of many sophisticated instruments made by people is really helpful and to ease people's work due to the emerging of both the hardware and software. PT. Lindo Pratama fully needs an information system which supports and gives contented services to all customers. That is why the writer tries to make her Final Assignment concerning with the goods selling system in PT. Lindo Pratama which is up to now the company has not applied the computerized system yet. At this moment, PT. Lindo Pratama is a company which is operating in designs and multimedia fields. The system which is being applied now in this company still done manually, starting from the registration of customers who buy goods, the handling of other records or data related to the selling process until the phase of making the reports, one of those phases might trigger some mistakes in doing the registration, less of accurateness from the reports made by and the lateness in finding required data or documents. The computerized system is not only the best solution to solve some problems appeared in this company, but also with this computerized system the company would attain enormous advantages since they are capable of doing those activities effectively and efficiently. The use of computerized system is so much better than the manual one because it can make the system runs smoothly, effectively and efficiently and indeed, the current selling system is more conducive than the prior system.
