

CERT-WEBINAR-SSBD1-GRI-005/03-06-2026

CERTIFICATE OF COMPLETION

THIS CERTIFICATE IS PRESENTED TO

Setyadi Tri Yoga, S.Pd., M.Tr.T.

For successfully completed the webinar **Sustainability Series : Energy Efficiency for Industry - Energy Audit and Management Strategies for a More Efficient and Sustainable Industry** conducted by **PT Global Relasitama Indonesia** on 03 June 2026

Ir. Shalahuddin Hasan, M.M.

Narasumber

Lukman Hakim

**Director of Global
Relasitama Indonesia**

Topic Outline :

Energy Outlook & Industrial Challenges: Understanding national energy trends, rising utility costs, and their impact on industrial Cost of Goods Sold (COGS).

Industrial Energy Efficiency Strategies: Tactical approaches to optimize energy consumption without reducing factory production capacity.

ISO 50001 & SKKNI Framework: Aligning corporate energy management with international standards and national competence regulations.

Periodic Energy Audit Workflow: Systematic steps based on ISO 50002 to identify No-Cost, Low-Cost, and High-Cost energy-saving potentials.

Energy Conservation Case Study: Practical application of linear regression for energy baselines and online reporting via the POME system.

Total Duration : 1,5 Hours
